

## **FY 2025 NGWMN Projects**

### **Colorado Department of Natural Resources**

The Colorado Department of Water Resources (CODWR) is a current water-level Network data provider. This is a one-year proposal to provide persistent data services under Objective 2A and add more than 20 water-level sites under Objective 2B.

### **Illinois State Water Survey**

The Illinois State Water Survey (ISWS) is a current water-level Network data provider. This is a two-year proposal to provide persistent data services under Objective 2A and perform slug tests on 20 wells and to redevelop an additional 5 wells under Objective 4.

### **Indiana Geological and Water Survey**

The Indiana Geological and Water Survey (IGWS) is a current water-level and water-quality Network data provider. This is a two-year proposal to provide persistent data services under Objective 2A and conduct maintenance on wells under Objective 4.

### **Kansas Geological Survey**

The Kansas Geological Survey (KGS) is a current water-level Network data provider. This is a two-year proposal to update NGWMN well site information, remove unusable wells, include new sites to the NGWMN, and update the metadata and maintain web services to continue to provide persistent data services under Objective 2A.

### **Missouri Department of Natural Resources**

The Missouri Department of Natural Resources (MODNR) is a current water-level Network data provider. This is a one-year proposal to repair the well casing of one well and to pump and develop six wells under Objective 4.

### **New Hampshire Geological Survey**

The New Hampshire Geological Survey (NHGS) is a current water-level Network data provider. This is a two-year proposal to maintain persistent data services under Objective 2A, fill data gaps under Objective 3, and perform site maintenance under Objective 4.

### **New Mexico Bureau of Geology and Mineral Resources**

The New Mexico Bureau of Geology and Mineral Resources (NMBGMR) is a current water-level Network data provider. This is a one-year proposal to provide persistent data

services under Objective 2A and fill a data gap by performing a downhole camera survey on a well under Objective 3.

#### **Oklahoma Water Resources Board**

The Oklahoma Water Resources Board (OWRB) is a current water-level Network data provider. This is a two-year proposal to maintain persistent data services under Objective 2A and conduct maintenance activities, integrity testing, and well development under Objective 4.

#### **Oregon Water Resources Department**

The Oregon Water Resources Department (OWRD) is a current water-level Network data provider. This is a two-year proposal to maintain persistent data services under Objective 2A.

#### **University of Delaware, Delaware Geological Survey**

The Delaware Geological Survey (DGS) is a current water-level and water quality Network data provider. This is a two-year proposal to maintain persistent data services under Objective 2A.

#### **University of Nebraska-Lincoln, Conservation and Survey Division**

The University of Nebraska-Lincoln, Conservation and Survey Division (UNLCSD) is a current water-level Network data provider. This is a one-year proposal to maintain the list of their sites and perform maintenance on web services to provide persistent data services to the NGWMN under Objective 2A.

#### **Utah Geological Survey**

The Utah Geological Survey (UGS) is a current water-level and water quality Network data provider. This is a two-year proposal to add 35 new water-level wells to the NGWMN under Objective 2B.
